## RENUAdvanced® Hydrating Cream

### More radiant skin is simple with RENUAdvanced

RENUAdvanced Skin Care System is the simple way to tackle your skin care routine. Our products are formulated based on redox principles, using safe and healthy ingredients you can count on. Support your skin's natural barrier and cellular health to combat everyday stressors so your skin feels toned, smooth, and glows radiantly.

### Powerful skin care, Powered by Redox™

Your skin's health starts at the cellular level, which is why our RENUAdvanced Skin Care products tap into decades of redox research to help your skin's cells perform optimally. ASEA's Powered by Redox formulas leverage the same redox principles our proprietary cell signaling technology is built on. However, instead of creating new redox molecules we specifically select pre-existing ingredients that support your skin's natural redox homeostasis—leaving you with hydrated, nourished, ageless, better-than-ever skin.
